ABC Computer Profile

ABC Computers established in 1992, was one of the very first computer companies to open in Cambodia. The main objective and motivation behind the formation of ABC Computers was, and still is, to serve the ever growing computer needs of Cambodia.

Our valued Clients list includes Foreign Embassies, UN agencies, Non Government Organizations and Agencies, Government Ministries, and countless private sector; businesses and individuals. These clients have come to rely on the high standard, quality products and professional services offered by ABC Computers.

First established in the capital Phnom Penh, ABC Computers has developed with the demand and is now operational with full Branch facilities and services in the major Provincial centers. The company has attested its fast rate of growth on two of its main attributes, Supply on Demand and Before and After SALES SERVICES.

Today, there are five ABC Computers outlets to serve you: In **Phnom Penh** plus **Sihanoukville, Battambang, Siem Reap** and **Kampong Cham**. These are the major growth areas and as the demand arises, other branches will be established to meet the need. For supply and services related to **MAC, PC, Local and Wide Area Networks, INTERNET, Web Page Design, Phone Systems and Computer Training**, you can depend on us. We have the experts, the experience and the local knowledge. ABC Computers have 40 trained-staff throughout Cambodia to professionally tackle any inquiry or problem you might have. We have the solutions. To find out, contact our Head Office or any of our branches.
